THE ALLIES AND TURKEY.

Porte's Reply to Settlement Proposals.

(Reuler's Service.)

Constantinople, April 30. The Porte has informed the Allied High Commissioners that it accepts the Allies' peace proposals generally, with a reservation in regard to the discussion of important points, including financial, military, and reparation questions.

The Ports insists upon the evacuation of the occupied regions, demands an equitable regime for Mussulmans, the maintenance of the Sultan's religious authority, and protests against the Inter-Allied Commission supervising the Straits while promising entire freedom of navigation. The Porte rejects any payment of compensation to Greece, but promises to respect minorities.

WAR DEBTS.

Proposed Reference to Arbitration.

Genoa, April 30.

POUNDED 1981 No. 12,373

The British proposals which are being reconciled with the French ones mentioned in the cable of the 29th inst. (see Earlier Cables), follow similar lines, but suggest referring inter-Government debts to an arbitration court to be chosen by the Court of International Justice, the Supreme Court of the United States, or the Council of the League of Nations. The fixed sum determined thereby must be paid within half a century, plus interest at 5 per cent.

WAR DEBTS SCHEME.

A Moratorium for Russia.

Paris, May I. A message from Genoa says the Judicial Committee mentioned yesterday has adopted a formula of conciliation for inter-governmental war debts. It is understood that Pussia, in view of her financial incapacity will be accorded a moratorium.

EARLIER TELEGRAMS.

THE GENOA CONFERENCE.

London, April 29. The Sub-Commission on Russian Affairs at Genoa has concluded its discussion. It referred the French and British proposals to the

drafting committee for the purpose of assimilation and unification. The British plan is not yet published, but a Paris message from Genoa states that the French memorandum favours an International Consortium with the object of financing the reconstruction and formation of a company to rehabilitate rolling stock and demand guarantees from foreign companies in the undertaking of industrial reform. The Soviets acknowledge all debts, but creditors must grant facilities for payment. Genoa, April 29.

M. Barthou will confer with M. Poincare in Paris to-morrow and will return to Genoa on Wednesday.

Uncertainty again descended in Conference circles this afternoon when M. Barthou announced his intention to go to Paris and confer with President Poincare and to return to Genoz on May 3rd. The rumours arising therefrom were not allayed by M. Barthou's explanation that the French delegation would carry on in the interim, thus not interrupting the Conference.

At a subsequent meeting of the Sub-Committee Mr. Lloyd George impressed on M. Barthou the inconvenience which would arise by his absenting himself at the present juncture. M. Barthou later announced that he had decided to remain, at least for the present. Genoa, April 30.

M. Barthou remains at Genera until the completion of the work of the Sub-Committee on Russian affairs.

Genba, April 29. M. Chicherin has written M. Facts complaining of the delay in dealing with the Russian question, regretting the absence of a precise reply regarding the amount of credits for Russian reconstruction and threatening withdrawal of the concessions made on

April 20th. Londen, April 29. Three famine relief funds have sent a letter to Mr. Lloyd George appealing to him to again raise at Genoa the question of a recon-

struction loam for Russia. London, April 29. Notwithstanding M. Kamenev's assertion at the meeting of the Moscow Soviet that Dr. Urquhart and others described former owners in Russia as proving the main obstacle to the conclusion of business negotiations at Genoa, the Assembly has decided to attract foreign capital for municipal reconstruction. This decision was taken after M. Boguslavsky reported on discussions with London capitalists thereanent.

Paris, April 30. A message is to hand from Genea from M. Barthou explaining the French viewpoint in the projected arrangement, regarding Russian war debts at the meeting of the Sub-Committee on Russian affairs. It is stated that the recognition asked from the Soviets entirely conformed to the Cannes resolutions. The French delegation undertook to recommend to Parliament the adoption of a Moratorium in favour of Russia. Mr. Lloyd George pointed out that Britain's interest in Russian debts was fifteen times greater than France's. The writing down of debts had always been admitted in Angle-French conversations, but there now appeared be a tendency to refute the understanding suggested. The French and British texts have been referred to a committee of judicial experts. The committee, which includes one representative each from Britain, Italy, France, Belgium and Japan, meets to-day in an endeavour to find a formula for adjusting the opposing viewpoints.

Genoa, April 30. The preamble of the draft reply to Russia, while emphasising that the economic reconstruction of Russia must occur from within, foresnadows aid from outside as soon as the necessary guarantees are forthcoming. It dwells on the restoration of Russian agriculture, mines and industries and the necessity of supplying machinery of all kinds. It alludes to the "establishment of an International Consortium with a capital of £20,000,000 for reconstruction purposes, with the possibility of an increase. Britain, France, Italy, Belgium and Japan are prepared to subscribe the capital in addition to co-operating for the restoration of industry.

Rome, April 30. The Pope has sent a letter to Cardinal Gasparri, hoping that there will be good results from Genoa. Heregrets to see how few are willing to make sacrifices for the common good and to co-operate in the most necessary social restoration and invites all to pray for this desirable result.

POPPY CULTIVATION IN CHINA. London, April 30.

Before concluding its sitting at Geneva, the League of Nations Opium Commission adopted a resolution, moved by Mr. Chao Hsinchu, suggesting that the League request the Chinese Government to make better and more thorough investigations into poppy cultivation in China in order to give more reliable reports to the League, and that the resolutions of other bodies particularly interested in the suppression of opium should be included in the Committee investigation. The original resolution apparently proposed Consular representation on the investigating body, but Mr. Chu strongly opposed and succeeded in getting the foregoing substituted.

PUBBER LABOUR.

London, April 29. Referring to the labour question at the annual meeting of the Ulurantau Rubber Estates, Straits Settlements, the Chairman said it was very difficult to obtain a resident Tamil Labour supply as the Ulurantau Company was not particularly popular in the neighbourhood. The Company began last year by employing Chinese who were more expensive but less efficient than Tamils. They were row trying to change from Chinese to Tamil labour, but there were great difficulties in the way.

CHARGES AGAINST MR. BOTTOMLEY

London, April 29. Mr. Horatio Bottomley has been committed for trial, bail being allowed in £10,000.

IRISH PEACE CONFERENCE.

London, April 29.

The Irish Peace Conference has apparently been wrecked on Mr. De Valera's demand for a further postponement of the elections. Mr. Collins and Mr. Griffith issued a statement saying that the opposition had refused to make or accept any proposal based on a plobiscite within a month and an election in June, including an offer to hold a second election based on adult suffrage for acceptance or rejection of the amendment of the Constitution. The statement concludes declaring that the Government will discharge its duty, secing that the people, who are the sovereign authority, will be free to vote approval or disapproval of the Treaty. All members of the Conference signed a statement expressing horror at the recent murders in County Cork and urging that it was the duty of all citizens to prevent similar crimes.

Later.

The Peace Conference of the two sections of Southern Irish, finally broke down at Dublin to-day.

London, April 29. A party of armed men shot dead five more local residents of County Cork, all Protestants. The circumstances of the murders are obscure and the motive unknown. The murders are believed to be reprisals for oppression of Catholics in Belfast. One of the latest victims is the son of the Rector of the Irish Episcopal Church.

THE PRINCE AT KYOTO.

Kycto, April 29. Yesterday the Prince of Wales spent'a long day amid some of the most glorious scenery in Japan. Motoring to Otsu Pier, he embarked in the new saloon steamer Midor Maru and had a six-hours' cruise on Lake Biwa, the largest lake in Japan. He saw fishing with

bamboo screens and took a most active-part in the sport. Landing in the afternoon at Hikone, the Prince of Wales visited the ancient castle, afterwards entraining for Gifu, where he saw comorant fishing by torchlight. He returned to Kyoto at one o'clock this morning. This afternoon he will visit Kyoto University and in the evening have dinner with the Prefectural Governor.

Kyoto, April 30. The Prince of Wales is doing Kyoto with informal thoroughness. Yesterday afternoon he witnessed what he termed a priceless show in the small courtyard of the Imperial Palace, when the ancient game of Kernar was revived by a team of elderly Court retainers in lacquered hats and grotesque costumes. Afterwards he watched a Rugby match, wherein the Japanese beat a British team. spent much time reaming about the exquisitely quaint old city shopping and sightseeing.

BANQUE INDUSTRIELLE.

Paris, April 29. In the course of the Parliamentary debates on the proposals to refloat the Banque Industrielle de Chine, several speakers stressed the point that Parliament should subordinate the utilisation of the Boxer Indemnity Guarantee Fund to calling up the third and fourth quarters of the capital. It was argued that shareholders should first assist the refloatation of the Bank, for they would be the first to benefit thereby. The Board of Administrators is now taking steps to satisfy Parliament and liberate the Bank's capital, thus -avoiding delay in the re-organisation.

STATE-OWNED SHIPPING.

London, April 29.

The chief item on the agenda of the International Shipping Conference in London in October deals with grievances as regards immunity of State-owned shipping from liability and taxation. The Chamber of Shipping which supports the views of the Comite Maritime International declares that private shipowners are gravely prejudiced, especially when vessels or cargoes are employed for ordinary commercial purposes. It points out that a Sovereign State cannot be sued for collision, damage, salvage or towage rendered, although on the other hand possessing the right of recovery, while even a graver threat to shipping and the prosperity to Overseas trade is the immunity of State-owned ships from income tax in their own country and the claim of immunity from taxation in every other country; also the immunity of safety regulations relating to cargo, passengers and crew. It is proposed that an International convention should be framed placing State-owned maritime property on precisely the same focting as private owned.

RUSSIAN MOTOR TRANSPORT.

London, April 29. The Soviet Government, anticipating improvement in the transport conditions of Russia as the outcome of a decree permitting free importation of motor cars, stated that negotiations had been entered into with foreign motor car manufacturers to establish branches ona mixed corporation basis. German, American and Italian companies propose to institute omnibus motor truck services linking up the rail stations and also to construct an inter-urban railway from Moscow.

SHIPPING NEWS.

ALL STRAMERS TO BE SEARCHED AT HANKOW. Hankow, Apr. 11:-The Ministry of War through the Director-General of Customs at Paking. has ordered the Customs authorities at Hankow to take stringent measures to examine all foreign and Chinese steamen passing through Hankow en route to Ichang or Szechuan porta see that no contraband arms are allowed to make

their way to Szechuan, which has long been the chief source of concern to General Wn Pei-fu Rumours are current here that several foreign boats loaded with arms and ammunition at Shanghai are proceeding to Ichang and Chungking very soon. And it is for the above report that the Mei Ren, a newly-built

steamer of the American West China Navigation Company, on its maiden trip to Hankow from Shanghai en route to Szechuan is being detained here to-day by the Maritime Customs authorities of Hankow who insist on having a thoough search on the boat be fore allowing it to depart with it cargo and passengers. The ship has been accused at the Custom House of having arms and am munition on board consigned to Szechuan troops at Chungking Several Customs examiners were appointed by the Customs Com missioner to search the Americal boat for arms, but nothing o the kind have been found of board. The Mei Ren is schedule to sail from Hankow thi morning, but because of the un fortunate development at Han kow, she will be delayed here on day before she gets her passage a Hankow,

River steamers of other nation alities that pass here on the way to Ichang or Chungking wi amination at Hankow. Severa service between Hankow an . Ichang will be searched by Cui toms officers at Hankow eac time they sail from Hankow t Chungking.

THE M. M. CORDILLERE. The M.M.S. Cordillere, which

had a prolonged experience is summer of the Yangize shoal again met with misfortune ov the Easter holidays, but on th occasion happily, was asho only for a very few hours. The Cerdillere left port on homeward voyage early 14th, inst., and proceeding to sea in foggy weather, we aground off Black Point. Th was about 5 a.m. A message assistance was sent to Shangh and ne Shanghai Tug & Light Co. despatched the St. Domit and the Victoria to her assistant In the course of the afternoon t Cordillere was towed off a proceeded on her voyage.

BRITISH SHIPPING OUTLOOK.

Prespect Of Gradual Improvement.

The Report for 1931 of the British Chamber of Shipping forms an excellent and comprehensive survey of the shipping activities. for the year, and though on the whole there is, naturally, little reading of a cheerful nature, one can discern between the lines signs of optimism and expectations of better conditions during the present year such as are slow. ly becoming apparent in other branches of world trade. At the very outset, the Report plunges. into a consideration of the prevailing depression in the shipping industry, the conditions in which are described as being worse than at any time within living memory. As indicative of the abnormally bad period through which shipping generally has passed and is passing, it is only necessary to quote that the time-charter rate for twelve months' general trading, which had fallen from 25s, to 10s, during the year 1920, further declined last year to between 5s. and 5s. 6d, reaching in the late autumn the pre-war figure, while the Chamber's index number for freights dropped from 46 January to 29 in December, as compared with an average of 100 for the preceding year. "At the close of the year," the Report continues, "the depression in the shipping industry had reached a point at which it could confidently be asserted that it could go no further in view of the failure of revenue and expenditure to balance. Such cargo vessels as remained at sea were for the most part running at a loss. which could be met only out of reserves of capital, while passenger and mail ships were being operated without profit, in most

are three main, and many subsidiary, reasons, all of which, with one exception (that of the cost of repairs) apply with almost equal force to all other great maritime nations. While the abnormal fall in freights due to the slump in trade the world over is the fundamental cause of the depression (as it will of necessity be the fundamental cause of any terival), the high operating costs to which practically all vessels are subjected nowadays-fuel. stores, dues, dock labour and wages-are all so great an increase on pre-war figures as to render the profitable operation of ships at pre-war freight rates a practical impossibility. This statement needs to be qualified, of course, by reference to those few companies who, in spite of the depression, still manage to pay substantial dividends; but on the whole it is applicable to shipping in all waters, and of all nations. It is a regrettable anomaly that Great Britain, as the world's greatest shipbuilding country, and with facilities for repairs unequalled anywhere, should be one of the most expensive so far as repairs are concerned, and while many vessels are now lying in United Kindom ports unrepaired because the cost of repairs would exceed the value of the ships when repaired, many others are
